

How to Register in Smarter Entry

Preparing Your Artwork for Submission

Image format and size requirements:

- Digital images can be uploaded in JPG, TIF, PDF, PNG file types
- Files must be less than 8MB in total size
 - If your image is less than 8MB in size, submit it as is
 - Images less than 8MB will automatically be resized to constraints necessary for Smarter Entry
 - Images less than 800 pixels on the longest side - you may want to resize using the original, larger file. If you do not have the original larger file, do not try to upsize your image. You are better off submitting an image as small as 600 pixels on the longest side, as resizing may distort the quality of the image by trying to increase the pixel dimension.
- File name should include your artwork title, if possible (this helps with loading artwork online)
- Tips on how to photograph your artwork can be found on the PCA website:
 - <https://plymouthguild.org/content/photographing-artwork>
